Java/J2EE Developers x 2

- Australian Company
- Career Growth
- Graduate Opportunity

Unico is a successful, rapidly growing, independent Australian IT company employing over 120 staff. We create, integrate and support scalable enterprise-grade applications to solve complex technical and business problems and enjoy the confidence of the largest and most demanding companies in Australia, across a broad range of industries. We have recently opened an office in Hobart which has created an opportunity to employ an IT Graduate.

If you have a keen interest in pursuing a career in software development with a focus on Java/J2EE technologies, then this could be the opportunity you have been waiting for!

This is an exciting opportunity to grow your career in software development as you will be involved on various projects across the whole SDLC. The projects are predominantly mission-critical solutions for our Tier-1 clients.

We are seeking a person that has a keen interest in Java/J2EE design and development in a UNIX (Sun/Solaris) environment. You would be required to participate in requirements, design and code reviews.

You must have excellent verbal and written communication skills be a team player, have a client focused approach and a passion for keeping up to date with technology.

If you are interested in applying for this role please press contact Karen Burstin at Unico Computer Systems on 03 9865 9218 or email your application to jobs@unico.com.au
